# KARTON APP

DRAFT

Step 1: User opens the app and sees our logo and is greeted by something like this.
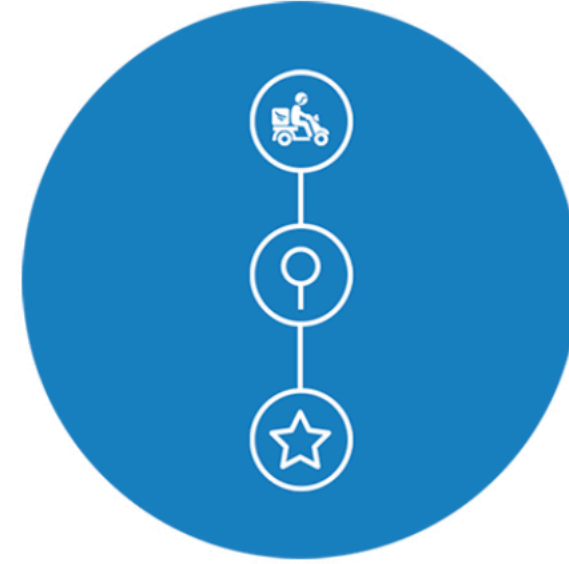

TRANSPARENT PRICING

View pricing before confirming order.
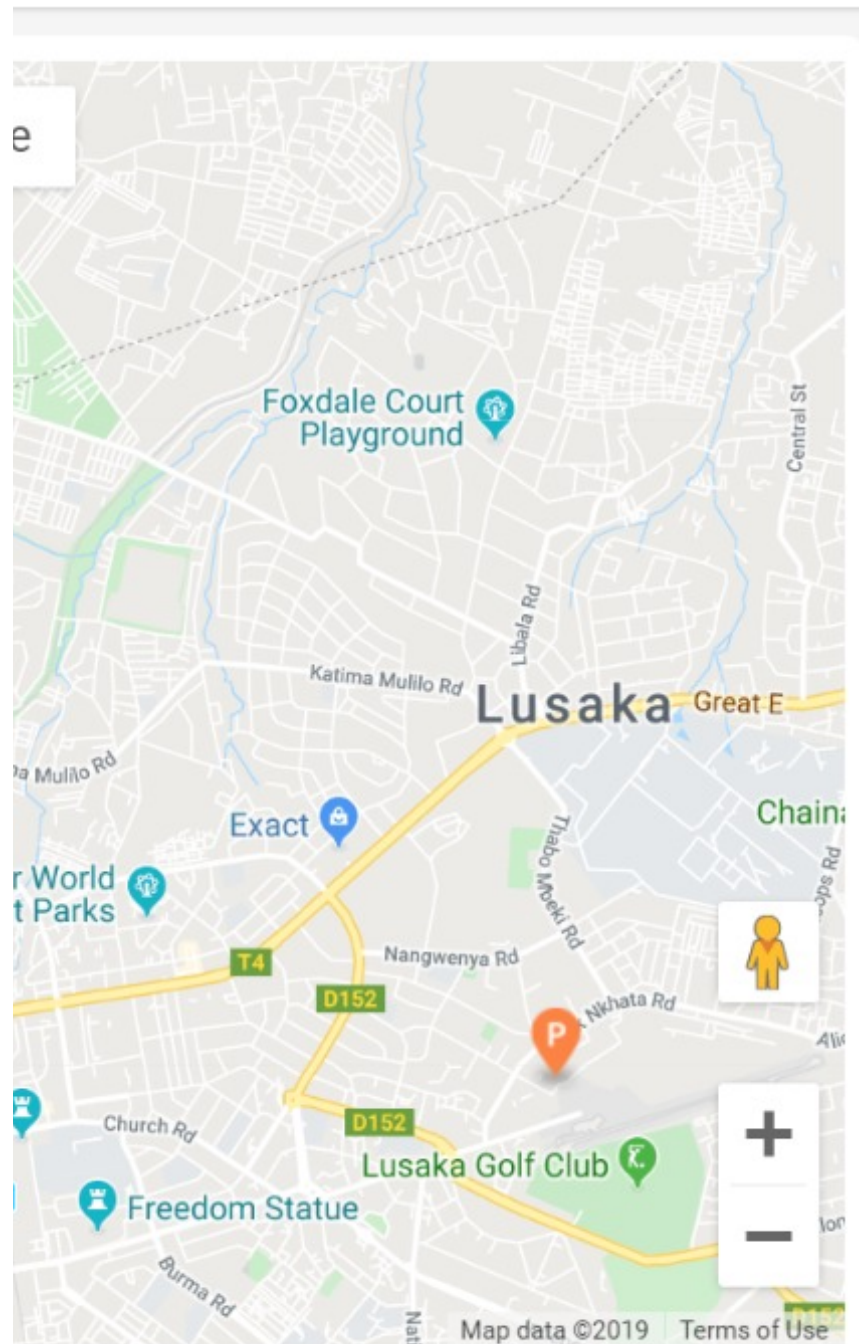

step 2: user selects pick up location and drop off location to simulate the price based on vehicle size

EASY TO USE

See available Riders & Drivers. Set pickup & destination.

(map on left side showing Lusaka with labels: Foxdale Court Playground, Katima Mulilo Rd, Lusaka, Great E, Exact, Chaina, r World t Parks, Nangwenya Rd, T4, D152, Church Rd, D152, Lusaka Golf Club, Freedom Statue, Burma Rd, Map data ©2019, Terms of Use, Libala Rd, Central St, Thabo Mbeki Rd, Nkhata Rd)

we shall have our own recreated KARTON trucks with logo emblem for UI.

Step 3: User can now see the available trucks against price

Select Truck

Here the user chooses a truck of their choice and they are directed to a sign up page/ call us

Step 4: Sign Up to Order or Call Us on 0776558393

Adding a sign up button will enable us extrapolate data from the backend and know who our clients are more easily.

Step 5: Mobile Money or Card

User can pay through Airtel mobile money using xxxxxx or they can insert their bank details. Let's brainstorm if debit card payment system is a functionality we want to build into the app at this juncture.

KES

m-PESA

FLEXIBLE PAYMENT OPTIONS

Pay with Cash, MPesa or Card.
